# Neighbourhood Plans

## What is a Neighbourhood Plan?

A Neighbourhood Plan contains information that helps us, Knowsley Housing Trust (KHT), and you, our customers, to understand the local and environmental issues in your neighbourhood.

Neighbourhood Plans will also help us manage the regeneration (redevelopment and improvement) of each of our 51 neighbourhoods.

We have developed 51 Neighbourhood Plans – one for each neighbourhood, and these highlight local issues and contain facts and figures about your neighbourhood.

Some of the issues that are important to us and to local neighbourhoods are anti-social behaviour, security and the environment.

Each Neighbourhood Plan also has an action plan. The action plan lists the things we propose to do in your neighbourhood.

## What is a Neighbourhood Plan for?

The Neighbourhood Plan gives us and our partners information about the issues in a neighbourhood so that we can make better decisions about how we manage our activities there.

The plan will help us make decisions about:

- \* *investing in our housing stock*
- \* *developing new housing, where there is a demand for it*
- \* *disposing of housing where it is no longer needed*
- \* *developing new housing products and services, such as Assisted Purchase and Social HomeBuy*
- \* *finding money to regenerate communities*
- \* *alternative ways of managing our housing.*

## How do we know what issues are important in each neighbourhood?

We have looked at and measured various factors that can affect how well a neighbourhood is working and can show us what problems it has.

The results show us that individual neighbourhoods have different types of problems and different levels of the same problem, while some neighbourhoods do not have these problems at all.

In this way, we can focus on the aspects of a neighbourhood that are causing problems and take steps to change things for the better.

# Neighbourhood Plans

## **The action plan – how we aim to make a difference**

The action plan is a list of activities, shown at the end of your Neighbourhood Plan, that we aim to do to improve your neighbourhood.

These activities are influenced by a range of information we have got from various sources. These include government figures, our own internal data, and information from surveys with our tenants and focus groups.
